

The Federal Communications Commission

Dear The Federal Communications Commission,

I am retired and living on a fixed income (mainly Social Security) and cannot afford to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

Under your flat fee proposal, I who seldom make any long distance calls would pay the same as people or businesses that make many calls. It is unfair that I should have to pay more than people who talk all the time!

I use my wireless phone for safety and security only. I don't want to lose my phone so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Barry Williams
